

# THE BOO DEVILS

---

## · BURNING FLAGS ·

*(Letra y Música: A. Navarro)*

No need for a big success  
There's no need for a real good time  
It's the feeling of throwing all away  
Just the crack when you get the rhyme

So feel the motor burnin'  
I can hear the music comin' on  
So feel the motor burnin'  
I can hear the music comin' on

It's time to relight the fire  
It's time for me to rethink the ride  
It happens every day or two  
Nobody wants to die at 69

So feel the motor burnin'  
I can feel the music comin' on  
So feel the motor burnin'  
I can hear the music comin' on

It's the Devil's eyes  
We were younger and eager of burning flags  
It's too late to grow up

I feel the motor burnin'  
I can hear the wolves surrounding  
And the Devil is just moaning  
I can feel the music comin' on

It's the Devil's eyes  
We were younger and eager of burning flags  
It's too late to grow up

I feel the motor burnin'  
I can hear the wolves surrounding  
And the devil is just moaning  
I can hear the music comin' on

If you see me don't pass me by  
If you see me, you son of a bitch  
We'll hang out till the end of time  
Be eternal is better than rich

So feel the motor burnin'  
I can feel the music comin' on  
So feel the motor burnin'  
I can hear the music comin' on

It's the Devil's eyes  
We were younger and eager of burning flags  
It's too late to grow up

I feel the motor burnin'  
I can hear the wolves surrounding  
And the Devil is just moaning  
I can feel the music comin' on
