---

## · THE LONG WAY BACK HOME ·

*(Letra y Música: A. Navarro)*

Ain't no buzzin', no more lyin'  
We're on our way back home  
It was crazy, there's no denying  
But now all the party's gone

When some days back we took the trail  
It was a hell of a party  
It was all insane  
Sadly, we just lost our tone

It's really funny to think it now  
When you're on the road  
You see the world somehow  
Suddenly you're pretty fucked up now

So get your ass in the van, this city is dead  
No time for sorrow  
No time for pledge  
The pretty girls, they went up in a dream

Hangover is tough  
Just keep the puke in your mouth  
If you wanna be a rocker  
Leave your crying behind

Here it's the long way back home  
The long way back home!  
Long way back home!  
Kick some ass now!

So get your ass in the van, this city is dead  
No time for sorrow  
No time for pledge  
The pretty girls, they went up in a dream

Hangover is tough  
Just keep the puke in your mouth  
If you wanna Rock N' Roll  
Leave your crying behind

Here it's the long way back home  
The long way back home!  
Long way back home! Long way back home!  
Get some ass now!

Let's go faster!!
